The Jugendwerk and ESK support young people with additional resources who have experienced social disadvantages, e.g. due to experiences of racism, the financial situation of the family, living in very rural areas with little infrastructure, physical and/or psychological restrictions or hurdles in your educational career. If this applies to you, you are welcome to explain your situation here, as briefly as you like. We know that these issues can be associated with much shame and pain. We will try to deal with your life story in a considerate and respectful manner and to respect your personal boundaries.
